## One Day Workshop Report

Date: 12/02/2024

Writing a report on a student development program/ workshop on "Convergence of Mechanical Engineering and Computer Science" program involved with the many current affairs content to fill the gap between industry and academic. The main aim to enhance the overall academic, professional, and personal growth of students pursuing mechanical engineering. This comprehensive program incorporates a variety of activities, workshops, and initiatives designed to foster technical skills, encourage innovation, and promote holistic development. The program is structured to bridge the gap between theoretical knowledge and practical application, preparing students for successful careers in the field of mechanical engineering.

The Student Development Program for the students strives to cultivate well-rounded and industry-ready graduates. By combining technical excellence with soft skills development and practical experiences, the program aims to empower students to thrive in their academic pursuits and future professional endeavors within the field of mechanical engineering.
